**Gold Medal – Best of Show**

**Heidi Breyer** (United States) composed *Amor Aeternus: A Requiem for the Common Man*, honored for achievement in contemporary classical music, composition, and as a new release. This project is a decade in the making, finally premiering in just over a week at Carnegie Hall. This music reaches into the divine, with soaring choral lines and beautiful instrumentation from both the string and horn section, but especially the piano played by Breyer herself. The thematics venerate the past decade’s struggle that our societies have persevered through, structured as a requiem to honor the strength of the individuals who have risen to the challenge.
